### DEFINITIONS:

In the following, the term “the authors” refers to Grigory Smolentsev and Alexander Soldatov at the above address. “Program” shall mean the copyrighted **FitIt** code comprising the computer programs known as the **FitIt** package.

### MANDATORY TERMS AND CONDITIONS:

I will adhere to the following conditions upon receipt of the program:

1. All title, ownership and rights to the program or to copies of it remain with the authors, irrespective of the ownership of the media on which the program resides.
2. I will not supply a copy of the code to anyone for any reason whatsoever. This in no way limits my making copies of the code for backup purposes, or for running on more than one computer system at my institution. I will refer any request for copies of the program to the authors.
3. When leaving my present institution, I will remove all copies of **FitIt** from its computer systems unless another user has signed and submitted this license for and use has been approved by the authors.
4. I will not incorporate any part of **FitIt** into any other program system, without prior written permission of the authors.
5. Program is provided for non-commercial research and education. Any commercial use of **FitIt** is prohibited without prior written permission of the authors.
6. I will keep intact all copyright notices.
7. I understand that the authors supply **FitIt** and its documentation on an “as is” basis without any warranty, and thus with no additional responsibility or liability. I agree to report any difficulties encountered in the use of **FitIt** to the authors.
8. In any publication in the scientific literature based on an application of **FitIt** I will reference the program package as follows:  
*Grigory Smolentsev, Alexander V. Soldatov, Quantitative local structure refinement from XANES: multidimensional interpolation approach, Journal of Synchrotron Radiation 13 (2006) 19-29*
9. It is understood that modifications of the **FitIt** code can lead to problems where the authors may not be able to help. It would be appreciated if useful modifications or major extensions are reported to the authors.
10. I agree that modifications or extensions of the program do not change the copyright; i. e. it with the author.
11. I understand that support for running the program cannot be provided in general, except on the basis of a joint project between the authors and the research partner.
